SUMMARY

Full-stack software engineer with 5+ years of experience building responsive web applications using React.js, Next.js, and Node.js. Skilled in cloud-based back-ends, performance optimization, and driving cross-functional collaboration.

EXPERIENCE

Freelance Software Engineer

Sep 2023 - Present

- Developed full-stack web applications for clients using React.js, Next.js, and Node.js.
- Built responsive, mobile-friendly UIs with Tailwind CSS, Shadcn and Material UI.
- Deployed applications on cloud platforms like Vercel, AWS and VPS with Nginx.

Software Engineer, Niles Tech Center, Chicago, IL

Jun 2023 – Sep 2023

- Migrated legacy front-end code to React.js and Tailwind CSS, improving maintainability.
- Enhanced .NET/MySQL data handling, reducing query time by 30%.
- Introduced modern libraries and standards to streamline workflows.

Jr. Web Developer, Boxless Media, Chicago, IL

2021 – 2023

- Built a MERN-stack municipal search engine for pandemic-response operations.
- Implemented new features in internal apps in collaboration with design and product teams.
- Optimized RESTful APIs for scalability and conducted code reviews.

Data Analyst, McDonald's Corporate, Chicago, IL

2015 – 2019

- Cataloged and archived enterprise data, ensuring reliable organization.
- Automated reporting pipelines, cutting processing time by 40%.
- Delivered insights to stakeholders to improve data collection processes.

EDUCATION Bachelor of Science, Loyola University Chicago 2015 – 2019

SELECTED PROJECTS

E-Commerce Platform

Next.js • Shadcn UI • Tailwind CSS • Kinde Auth • Sanity.io

Developed a responsive comic-themed storefront with secure authentication and CMS integration.

Marvel Entertainment App

Next.js • TMDB & Marvel APIs • GPT-4o • Tailwind CSS • LocalStorage

Engineered AI-driven recommendations and robust caching for seamless browsing of movie/character data.

Blog CMS

Next.js • MongoDB • Sanity.io • Kinde Auth • Tailwind CSS

Built a headless-CMS-driven blog with user authentication and dynamic content editing.

TECHNICAL SKILLS

- Languages: JavaScript (ES6+), TypeScript, Python, C#, SQL
- Frameworks: React.js, Next.js, Node.js, Express, Django • Databases: MongoDB, MySQL, PostgreSQL
- Cloud & DevOps: AWS, Docker, npm, nginx, Git, Vercel, VPS Deployment
- Tools & UI: Tailwind CSS, Shadcn UI, Sanity.io, Kinde Auth, Firebase, Figma
